DESCRIPTORS	Career Education; Community Colleges; Curriculum; *Directories; Junior Colleges; *Post Secondary Education; Private Schools; Public Schools; Technical Education; *Technical Institutes; *Vocational Education; *Vocational Schools

ABSTRACT

This directory is the first Office of Education publication that lists public and private schools offering occupational education at the post-secondary level. Data were provided by project coordinators for the 50 States, the District of Columbia, American Samoa, Guam, Puerto Rico, Trust Territory of the Pacific Islands, and the Virgin Islands. Institutions listed include public and private noncollegiate post-secondary schools. Two-year colleges and 4-year colleges and universities are also included if they offer occupational programs which lead to a certificate or degree at less than the baccalaureate level. Schools listed are classified as vocational, correspondence, trade, flight, business, cosmetology, hospital, and technical institutes, and colleges classified as business, junior/community, and 4-year. Listings are by state and city and include accreditation, eligibility for federal loans, and occupational programs. Criteria for listing in the directory, accrediting agencies and associations, and explanation of data are presented in the front matter. Appendixes include abbreviations used, copy of questionnaire form sent to obtain the data, and the State coordinators and contacts. Indexes by program and by school and institution are also provided. A companion directory of secondary schools is available as VT 020 364 in this issue. (MF)

FOREWORD

This directory represents a first-time effort of the U.S. Office of Education to provide a comprehensive listing of postsecondary schools and institutions offering career-related programs. It is designed to provide a new resource for guidance of students as well as to aid those concerned with educational and manpower planning.

Schools and institutions listed in this directory include public and private noncollegiate postsecondary vocational schools. Two-year colleges and 4-year colleges and universities are also included if they offer occupational programs which lead to a certificate or degree at less than the baccalaureate level. The criteria for listing in the directory are described in detail in the introduction.

Information presented for each school includes the address, telephone number, county, vendor number, accreditation, eligibility for the Federal Insured Student Loan program and for veterans' education under the Veterans Administration, and types of occupational programs offered. Enrollment figures are shown for public schools only.

These data were provided by project coordinators who were nominated by the appropriate chief school administrator in each State. State coordinators were faced with the formidable task of compiling lists of schools from various sources and then surveying them. These data-collection activities and the subsequent editing of the questionnaires were the key to the preparation of this directory. Special appreciation for the efforts of these State coordinators is acknowledged.

Planning assistance for this project came from a number of sources. The most immediate source of assistance was provided by a U.S. Office of Education planning group which included Leroy A. Cornelsen, Sherrill D. McMillen, and Katherine K. Wallman of the Bureau of Adult, Vocational, and Technical Education; Leslie W. Ross of the Bureau of Higher Education; Anita V. Turner of the Bureau of Elementary and Secondary Education; and George E. Klinkhamer of the Bureau of Education for the Handicapped.

This directory was prepared under the supervision of Evelyn R. Kay of the Adult and Vocational Education Surveys Branch, who worked closely with Nicholas A. Osso, who supervised the preparation of the *Directory of Secondary Schools with Occupational Curriculums*. Accreditation and eligibility of schools and institutions for inclusion in this directory were verified by Voncille M. McDonald and Joan Givens of the Accreditation and Institutional Eligibility Staff of the Bureau of Higher Education. Substantial assistance in the verification of other types of information was provided by Judith A. Anderson, Sylvester H. Cain, and Eugene E. Hixson. The major task of editing all information provided by State coordinators and from other sources was performed by Barbara A. Whalen. Data processing and programming were supervised by W. Craig Rose of the Automatic Data Processing Division.

A number of schools that fulfill the requirements for inclusion in this directory may have been inadvertently omitted. We would welcome any omissions or corrections being called to our attention so that the next edition of this publication will be as comprehensive as possible. A form appears at the end of this publication to facilitate reporting these changes. Suggestions about format also are requested to make subsequent editions more responsive to the needs of users.

INTRODUCTION

This directory is the first U.S. Office of Education publication that lists public and private schools offering occupational education at the postsecondary level. A similar directory on public and nonpublic secondary schools offering vocational education was published for the first time this year.[1] Together, these directories comprise the most complete list available of secondary and postsecondary schools offering occupational programs.

These directories were prepared in response to the needs of many types of users. Manpower and educational planners at the Federal, State, and local levels have long required more precise information on the current and potential supply of skilled workers. These directories should help, for example, to identify the types of programs being offered at the local level in order to determine whether such programs should be expanded to meet projected demand for the occupation, or curtailed because demand is not anticipated. In vocational guidance, students and counselors may more easily identify those schools offering training for particular occupations in which they are interested. Of special interest to educational researchers is the potential use of the directories as a basis from which to draw samples of schools for surveys designed to help answer some of the pressing problems facing vocational education.

Concepts and Definitions

For the purpose of this directory, vocational education is defined as educational instruction designed to: (1) prepare individuals for gainful employment in recognized occupations and/or new and emerging occupations; (2) assist individuals in making informed and meaningful occupational choices; and (3) upgrade or update the skills of individuals already in an occupational field. This definition was prepared by the Bureau of Adult, Vocational, and Technical Education and adopted in the survey for this directory.

A vocational education program is a planned sequence of courses leading to a specific occupational objective.

---

[1] *Vocational Education: Directory of Secondary Schools with Occupational Curriculums*, 1971 (OE 73-11409)

Only those public and private schools and institutions which offer specified instructional programs at the postsecondary level are included in the directory.[2] The various types of listings include schools classified as vocational, correspondence, trade, flight, business, cosmetology, and hospital; technical institutes; and colleges classified as business, junior/community, and 4-year. Excluded are museums, libraries, tutorial services, schools and community agencies which offer training in avocational or hobby courses, program activities sponsored independently by State or local education agencies, self-employed instructors, on-the-job training in industrial settings, and formal labor/management apprenticeship programs.

Criteria for Listing in This Directory

To be listed in this directory, public and private schools and institutions that offer postsecondary vocational education programs below the baccalaureate level in the United States and its outlying areas must meet one or more of the following criteria:

1. Public schools approved by a State department of education
2. Public and private schools approved by a regional accrediting association recognized by the U.S. Office of Education
3. Private schools offering programs approved by an accrediting association or agency recognized by the U.S. Office of Education
4. Public and private schools meeting the requirements for eligibility for the Federal Insured Student Loan program by the U.S. Office of Education or for veterans' education programs by the Veterans Administration.

Accreditation of all schools reported in this directory was verified by the Accreditation and Institutional Eligibility Staff of the U.S. Office of Education. Approval for veterans' education programs was based on a list dated April 1972 provided by the Veterans Administration.

Accreditation

The U.S. Office of Education does not accredit, recommend, or approve any school or educational institution. It does, however, maintain a list of accrediting agencies and associations which are recognized by the U.S. Office of Education.

In general, there are two types of accreditation: institutional, and specialized or program. Institutional accreditation is awarded by the secondary and postsecondary commissions of six regional accrediting associations. This type of accreditation applies to the total institution and signifies that the institution as a whole is achieving its objectives satisfactorily. Specialized or program accreditation is conferred by a number of organizations which are national in scope and represent a specialized area of study, such as cosmetology, practical nursing, or trade and technical education. Program accreditation applies only to the specific program and not to the institution itself, except for single-purpose schools.

---

[2] See section on Program Abbreviations for the list of program offerings which qualify schools for inclusion.

The six regional accrediting agencies, the States within their jurisdiction, and the abbreviations used in this directory are:

M	Middle States Association of Colleges and Secondary Schools, 225 Broadway, New York, NY 10007: Delaware, District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Canal Zone, Puerto Rico, Virgin Islands.
NC	North Central Association of Colleges and Secondary Schools, 5454 South Shore Drive, Chicago, IL 60615: Arizona, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, West Virginia, Wisconsin, Wyoming.
NE	New England Association of Schools and Colleges, 131 Middlesex Turnpike, Burlington, MA 01803: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont.
NW	Northwest Association of Secondary and Higher Schools, 3731 University Way, NE, Seattle, WA 98105: Alaska, Idaho, Montana, Nevada, Oregon, Utah, Washington.
S	Southern Association of Colleges and Schools, 795 Peachtree Street, NE, Atlanta, GA 30308: Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia.
W	Western Association of Schools and Colleges, c/o Mills College, Oakland, CA 95613: California, Hawaii, American Samoa, Guam, Trust Territory of the Pacific Islands.

The associations and agencies which accredit programs or special-purpose schools and their abbreviations used in this directory are:

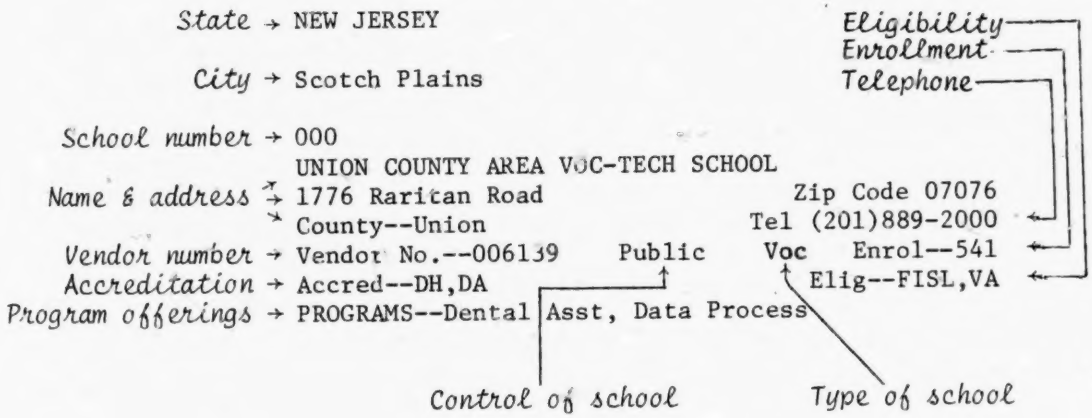
ACBS	Accrediting Commission for Business Schools: business schools
ADN	National League for Nursing: associate degree program in nursing

ANES	American Association of Nurse Anesthetists: anesthesiology
CAC	Cosmetology Accrediting Commission: cosmetology
DA DH DT	American Dental Association, Council on Dental Education: dental assistant, dental hygienist, dental technician
ECPD	Engineers' Council for Professional Development: engineering technology
FSE	American Board of Funeral Service Education: funeral service education
IT	American Medical Association, Council on Medical Education: inhalation therapy technologist
MLT	Accrediting Bureau for Medical Laboratory Schools: medical laboratory technician
MRT	American Medical Association, Council on Medical Education: medical record technician
NAPNES	National Association for Practical Nurse Education and Service: practical nurse education
NATTS	National Association of Trade and Technical Schools: all trades and technologies
NHSC	National Home Study Council: all programs
NUR PN	National League for Nursing: nursing, practical nursing
RT	American Medical Association: radiologic technologist

Explanation of Data

Public and private postsecondary schools are listed alphabetically under the States and the cities where they are located.

Each school listing is arranged in the following format:



NEW JERSEY

Scotch Plains

000
UNION COUNTY AREA VOC-TECH SCHOOL
1776 Raritan Road Zip Code 07076
County--Union Tel (201)889-2000
Vendor No.--006139 Public Voc Enrol--541
Accred--DH,DA Elig--FISL,VA
PROGRAMS--Dental Asst, Data Process

School number. Each school is assigned a number in sequence as it appears within each State. The school listed first in each State is assigned the number 1. These numbers are unique to this publication and are only for the purpose of identifying the school from the School Index or the Program Index.

Name and address of school. Names and addresses including counties and zip codes are those provided by the schools in response to the survey, or by State coordinators. Abbreviations are in accordance with those listed in appendix A.

Tel. Telephone number, including the area code, of the school.

Vendor number. A serial number, known as a vendor number, is assigned to noncollegiate schools which have had some business transaction with the U.S. Office of Education. Institutions of higher education are assigned a Federal Interagency Committee on Education (FICE) code. Vendor numbers and FICE codes are unique to each school and remain assigned to the school if its name or location should change. Should the school cease to exist, the number is inactivated.

Type of school. Definitions for the various types of schools at the postsecondary level of instruction were taken from the *Standard Terminology for Curriculum and Instruction in Local and State School Systems* (OE 23052). Schools were classified in this category based on self-identification. Because of ambiguity in some of the definitions, examples of programs offered by special-purpose schools are provided. Abbreviations used to indicate the type of school listed are:

Voc	Technical or vocational school--A school that exclusively or principally provides occupational education to persons who have completed or left high school and are available for full-time study. Special-purpose schools that offer the following programs are included in this group: airline careers, auctioneering, commercial art, dog grooming, fashion design, floristry, housekeeping, interior design, medical and dental assisting, mortuary science, practical nursing, sea diving, and travel.
Tech	Technical institute--An institution offering instruction in one or more of the technologies at a level above the skilled trades and below the professional level.
Bus	Business/commercial school--A school offering courses for business occupations, such as accounting, data processing, and secretarial. Special-purpose schools that offer the following programs are included in this group: court reporting, finance, insurance, real estate, and sales.
Cos	Cosmetology school--A school offering programs in beauty treatments, such as care and beautification of hair, complexion, and hands.
Flight	Flight school--A school offering programs for training as aircraft mechanic, pilot, or work in other technical fields related to aviation.
Trade	Trade school--A school offering programs in one or more trades, such as auto mechanics, baking, barbering, bartending, carpetlaying, cooking, dealing, drafting, fireman training, ground maintenance, horseshoeing, laundering, locksmithing, meat processing, photography, police training, polygraph, radio/TV broadcasting, sewing-tailoring, Swedish massage, truck driving, and welding.
Corr	Correspondence school--A school offering instruction only through the systematic exchange between teacher and student of materials sent by mail. No facilities are available for resident students.
Hosp	Hospital school--A hospital, sanatorium, or convalescent home offering instruction for medical and paramedical occupations.

Jr Col	Junior/community college--An institution offering the first 2 or 3 years of college instruction. It frequently grants a certificate or an associate degree but not a bachelor's degree.
Col	College--An institution offering instruction at the college level leading to a bachelor's or higher degree. It frequently offers occupational programs leading to an associate degree, diploma. or certificate below the baccalaureate.
Other	Schools or institutions not classified in any of the above groups include schools of modeling, dramatic arts, music, brewing, maritime, and horsemanship; MDTA centers; Job Corps centers; schools for the retarded; vocational rehabilitation schools; and correctional institutions.

Control or affiliation. The following terms are used to identify the type of control of the school listed:

Public	Controlled by Federal, State, or local governments
Proprietary	Operated as a private, profitmaking school
Independent	Operated as an independent nonprofitmaking school with no religious affiliation
(Name of religion)	Affiliated with the religious group named. Abbreviations of religious groups are as follows:

Af Meth Ep	African Methodist Episcopal Church
Am Baptist	American Baptist
Amer Luth	American Lutheran
Assem God	Assembly of God Church
Brethren C	Brethren Church
C Christ	Church of Christ
C Nazarene	Church of the Nazarene
Chur God	Church of God in Christ
Disc Chrst	Christian Church, Disciples of Christ
Evang Cov	Evangelical Covenant Church of America
Evang Luth	Evangelical Lutheran
F W Bapt C	Free Will Baptist Church

Lat Day St	Latter Day Saints
Luth Ch Am	Lutheran Church in America
Luth Mo Sy	Lutheran Church, Missouri Valley Synod
Pent Holin	Pentecostal Holiness Church
Presby USA	Presbyterian Church, USA
Prot Epis	Protestant Episcopal
Ref Ch Am	Reformed Church of America
Ref Pres C	Reformed Presbyterian Church
Roman Cath	Roman Catholic
7th Day Ad	Seventh-Day Adventists
S Baptist	Southern Baptist
Unit Meth	United Methodist
Unit Presb	United Presbyterian Church, USA
United Ch	United Church of Christ
Wes Meth C	Wesleyan Methodist Church

Enrollment. For most public schools, the enrollment figure shown is the total enrolled in vocational programs and represents an unduplicated count of students. For colleges and junior/community colleges, however, the enrollment figure represents total school enrollment of which only a small proportion of the student body may be enrolled in vocational programs. Where schools did not provide enrollment data, the space is left blank. All enrollment data refer to the 1970-71 school year, with the following exceptions:

State	Reference period
Delaware	October 1971
Kansas	1971-72
Maine	1971-72
Massachusetts	October 1971
Montana	1971-72
Nebraska	1971-72
North Carolina	1971-72
North Dakota	October 1971
Oklahoma	1971-72
Oregon	March 1972
Pennsylvania	1971-72
Vermont	1971-72

Accreditation. Abbreviations are used to indicate the various accreditations that may be applied by any of the OE-approved accrediting bodies as listed under the section on Accreditation.

Eligibility. Abbreviations are used to indicate whether schools have established eligibility for the Federally Insured Student Loan program (FISL) or for the Veterans Administration (VA).

Programs. Only those instructional programs which are occupationally oriented are listed. Program titles are taken from the *Standard Terminology for Curriculum and Instruction in Local and State School Systems* (OE 23052) and *A Taxonomy of Instructional Programs in Higher Education* (OE 50064). See the section on Program Abbreviations for a more detailed discussion of programs covered by this survey and for the abbreviations used.

Special Note on Indexes

Two indexes are provided in this publication: a School Index and a Program Index.

The School Index is an alphabetical listing, by name of school, of all schools included in the directory. Each name is followed by a State and school number, as a reference to its location in the directory.

The Program Index is a unique feature, primarily for career guidance assistance. It lists all program offerings that appear on the postsecondary school survey form, followed by references to the schools that offer these programs. Used in conjunction with the Department of Labor's *Occupational Outlook Handbook*, the directory should prove a valuable tool for teachers and guidance counselors.

Methodology

Information for inclusion in this directory was compiled from two major sources. Colleges and junior/community colleges which offer vocational programs below the baccalaureate level were identified from the Higher Education General Information Survey (HEGIS) for 1970-71. Data were taken from the Earned Degrees Conferred, 1970-71, schedule. The names of all other schools were derived from survey forms or lists supplied by each State through State coordinators who were nominated specifically for this project. A copy of the survey form is in appendix B. A list of the State coordinators and other individuals involved in providing data is in appendix C.

State coordinators were responsible for obtaining data on all postsecondary schools not included in HEGIS. Records of enrollments and program offerings in public postsecondary schools were generally available from State vocational education offices. The real test of ingenuity came when State coordinators attempted to compile lists of private schools. Very few States had a complete, up-to-date list. Lists were eventually developed using all other available sources, such as telephone books, lists of Veterans Administration-approved schools, and lists provided by accrediting agencies and associations.

State coordinators handled the mail-out, data collection, and editing of the completed survey forms. Most States forwarded the completed forms directly to NCES; about 10 States preferred to send keypunched cards. Final editing, verifying, keypunching, and machine tabulations were done in the U.S. Office of Education.

Program Abbreviations

To conserve space in the directory listing, abbreviations or shortened names were used to indicate the various types of programs offered by a school.

Program titles are derived from the *Standard Terminology for Curriculum and Instruction in Local and State School Systems, Handbook VI* (OE 23052); and the *Vocational Education and Occupations* (OE 8061). Such program titles and codes are referred to as OE codes.

Also incorporated in the program titles are the occupational programs that were reported on the survey forms for the *Earned Degrees Conferred*, 1970-71, Higher Education General Information Survey (HEGIS). The source of these programs is *A Taxonomy of Instructional Programs in Higher Education* (OE 50064). Such program titles and codes are referred to as HEGIS codes.

The tabulation below provides the abbreviations used in the directory listing, the full name as it appears in the Program Index, and the associated OE and/or HEGIS codes:

Abbreviation	Name in Program Index	OE code	HEGIS code
Accounting	Accounting & Computing Occupations	14.01	5002
Advertising	Advertising Services	04.01	--
Aero Tech	Aeronautical Technologies	16.0101	5302
Agri Mech	Agricultural Mechanics	01.03	--
Ag Prodtion	Agricultural Production	01.01	--
Ag Products	Agricultural Products	01.04	--
Ag Resources	Agricultural Resources	01.06	--

05 1

13A. TYPE OF SCHOOL. ENTER CODE OF ONE OF THE FOLLOWING TYPES WHICH BEST DESCRIBES THIS INSTITUTION. Use letter code "A" through "K" → *(16)* ☐

A. **TECHNICAL OR VOCATIONAL SCHOOL.** A school used exclusively or principally for providing vocational education to persons who have completed or left high school and who are available for full-time study.

B. **TECHNICAL INSTITUTE.** A public or nonpublic institution offering instruction in one or more of the technologies.

C. **BUSINESS/COMMERCIAL SCHOOL.** A nonpublic educational institution offering courses for business occupations, such as accounting, data processing, secretarial.

D. **COSMETOLOGY SCHOOL.** A school offering programs in beauty treatments, such as care and beautification of hair, complexion, and hands.

E. **FLIGHT SCHOOL.** A school offering programs for work as an aircraft mechanic, pilot, or other technical fields related to aviation.

F. **TRADE SCHOOL.** A nonpublic educational institution offering courses for trade occupations, such as welding, barbering, auto mechanics.

G. **CORRESPONDENCE SCHOOL.** An institution offering instruction only through the systematic exchange between teacher and student of materials sent by mail. No facilities are available for resident students.

H. **HOSPITAL SCHOOL.** A hospital, sanatorium, or convalescent home offering instruction for medical and paramedical occupations.

I. **JUNIOR/COMMUNITY COLLEGE.** An institution offering the first 2 or 3 years of college instruction. It frequently grants a certificate or an associate degree but not a bachelor's degree.

J. **COLLEGE.** An institution offering instruction at the college level leading to a bachelor's or higher degree. It frequently offers occupational programs leading to an associate degree, diploma, or certificate below the baccalaureate.

K. **OTHER.**

13B. IF ANSWER TO ITEM 13A IS "K" *(Other)*, SPECIFY TYPE OF SCHOOL 17 29

13C. DOES THIS INSTITUTION OFFER ANY VOCATIONAL EDUCATION AT THE HIGH SCHOOL LEVEL? Enter "Y" for "Yes" or "N" for "No" 30 ☐

OE FORM 2334-1, 6/71

OE FORM 2334-1, 6/71

VOCATIONAL EDUCATION DIRECTORY PROJECT
Public and Private Postsecondary Vocational School Data: 1970-71
Instructions and Definitions

(OE Form 2334-1, 6/71)

GENERAL

NOTE: Data acquired in this survey may be published in a listing by individual institutions.

1. This survey is intended to include all public and private nonprofit and proprietary postsecondary schools which offer vocational education below the baccalaureate level. Excluded from this survey are institutions of higher education which are accredited and/or eligible for inclusion in the **Education Directory--Higher Education.** Data for these institutions will be derived from other reports to the U.S. Office of Education.

2. Vocational education is educational instruction below the baccalaureate level designed *(a)* to prepare individuals for gainful employment in recognized occupations and/or in new and emerging occupations, *(b)* to assist individuals in making informed and meaningful occupational choices, and *(c)* to upgrade or update those individuals already in an occupational field.

3. A school consists of groups of students with one or more teachers who give instruction of a defined type in one or more subject fields. EXCLUDED from this survey are tutorial services, schools providing training in avocational or hobby courses, such as music, art, or sewing for personal use, self-employed instructors, on-the-job training in industrial settings, and formal labor/management apprenticeship programs.

4. Data should refer to the period between July 1, 1970, through June 30, 1971.

5. A separate form should be completed for the main campus or office and for each division or branch.

6. Where applicable, standard U.S. Office of Education definitions are used. See **Standard Terminology for Curriculum and Instruction in Local and State School Systems, Handbook VI;** and Vocational Education Amendments of 1968.

7. Preprinted spaces indicate the **MAXIMUM** allowable number of spaces for either alphabetic or numeric entries. If an entry exceeds the space allowance, reformat by abbreviating.

8. For convenience, items to be answered "yes" or "no" are to be coded "Y" or "N".

SPECIFIC

ITEM 1A. Use 2-digit code assigned to your State.

ITEM 1B. For State use only. Leave blank.

ITEM 2. For State use only. Leave blank.

ITEM 4. Use 3-digit code assigned to county in which institution is located.

ITEM 6. Enter institution street address. Street address is to consist of street number and name, Post Office box number, RFD route, or other similar designation.

ITEM 9. Enter the U.S. Congressional district number in which the institution is located. In the case of 1-digit Congressional district numbers, supply a leading 0, e.g., Congressional district "1" should be shown as "01", etc.

ITEM 12C. If "Y" is entered in either item 12A OR 12B, enter name, street address, city, State code number, and postal zip code of the parent institution or organization. If State code number is unknown, write in State name.

ITEM 13A. Select the one "Type of School" which represents the institution's principal classification. Enter the corresponding letter code A through J in the preprinted space provided. If this institution is "Other" than those described, enter the letter code "K" and specify type of school in 13B.

ITEM 14. Enter unduplicated count of students below the baccalaureate enrolled in this institution between July 1, 1970, and June 30, 1971. Enter all categories that apply and verify row and column totals. Follow the preprinted form for number entries, such that units are in the right-most position, tens are in the next position to the left, etc.

ITEM 16A, B. Select the one "Type of Control" that best describes this institution. Enter the corresponding letter code A, B, C, or D in the preprinted space provided. If "D" is entered in 16A, specify the religious group with which the institution is affiliated in 16B.

ITEM 17. Check all special programs and services offered at this institution. If none is offered, check "None". Special programs and services are defined as:

DISADVANTAGED persons have academic or other handicaps resulting from socioeconomic or cultural impoverishment that prevent them from succeeding in regular vocational programs. Check ONLY if special facilities or services are provided or if training programs are adjusted to meet vocational education needs of students who are disadvantaged.

HANDICAPPED persons have a physical, mental, or other health impairment which prevents them from succeeding in regular programs without special educational assistance or a modified vocational program. Check ONLY if these services are provided.

COOPERATIVE WORK EXPERIENCE is for persons who, through a cooperative arrangement between the school and employers, receive instruction in vocational education by alternating study in school with a job in any occupational field. *(Part F of the Vocational Education Amendments of 1968.)*

WORK STUDY PROGRAM is for full-time vocational education students, from 15 through 20 years of age, in need of earnings to continue their education. Such students may be employed by the local education agency or some other public agency or institution but may not work for more than 15 hours a week, or receive more than $45 a month. *(Part H of the Vocational Education Amendments of 1968.)*

GUIDANCE COUNSELING and/or PLACEMENT SERVICES should be checked only if the institution provides these services as a regular activity or, in the case of a private institution, if these services are included as part of its tuition or fees.

ITEM 22. Check **ALL** vocational-technical education instruction programs offered by this institution during the 1970-71 school year. Do not line through or cross out programs not offered. Every effort should be made to classify programs according to the OE vocational code selection shown. See **Vocational Education and Occupations**, OE-80061, July 1969, as a guide for classifying occupations in their appropriate program fields. If any programs cannot be identified on the listing, write the titles in the blank spaces provided at the end of the item and give a brief description of each. It is necessary to check or describe at least one vocational education program in order for the institution to qualify for this survey. After completing each group of vocational education programs, add the boxes checked for that group and enter the total in the space provided at the top of the group listing.

THANK YOU FOR YOUR COOPERATION

INDEXES

Program Index

School and
Institution Index

PROGRAM INDEX

This section of the directory should be of particular interest to guidance counselors and students who are seeking names and addresses of schools offering programs in which they are interested. For example, if a student wishes to locate a school of cosmetology in Texas, the Program Index will provide references to these schools.

The Program Index is arranged in alphabetical sequence by title of instructional program. This is followed by the abbreviation used in the main directory listing to designate types of program offerings. As a guide to users, see also references are made to related instructional programs.

For purposes of clarity, some program titles needed further explanation regarding the kinds of occupations or the types of products associated with the program. In such cases, short explanations appear in parentheses.

Following the program titles and other information are coded references to schools which offer the programs. These references use a two-letter State abbreviation followed by a number; for example, MD 185 designates the 185th school in the State of Maryland. This can be quickly identified by referring to the directory listing under Maryland and locating the school numbered 185. State abbreviations are provided in appendix A and the number of the school appears on the line just above its name in the school directory.
